Subject: Source Investigation Information Request

Eugenia:

The CPG is requesting the following information from the Region's recent Source Investigation sampling

1. Please provide a copy of SERAS SOP 2016.
2. Please provide copies of the actual sampling location coordinates, coring logs and recovery estimates for each core as soon as possible.
3. Please confirm that the sampling program will require that all Vista PCDD/PCDF data deliverables (e.g., data packages etc) will report estimated concentrations for ~119 non-2378 substituted congeners; these data are required in order this data set to be consist with LPRSA RI data sets which have reported all non-2378 substituted congeners.

Please contact me with any questions.

Thank you.
